PIANOLA PIANO

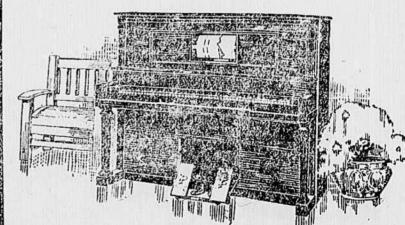

Why not give the home a genuine Pianola Piano this Christmas and make every member of the household a musician? The Pianola Piano is known as "The Complete Piano" because it is not only a perfect piano for finger playing, but may be played by any one by means of the paper music roll.

The Pianola Piano is the recognized standard player-piano of the world. Its special patented features-such as the Metrostyle and Themodist -- enable the novice in music to duplicate the playing of the great pianists and place the Pianola Piano in a class apart.

Ordinary pianos with inside player mechanisms are often mis-called "Pianola Pianos," but be sure to guide against a mistake in buying. The genuine Pianola Piano is made only by the Acolian Co., of New York, and is sold in Richmond only by us.

We have Pianola Pianos in a number of beautiful models, including the Steinway, which is the wonderful Steinway Piano

with the Pianola player built in its case. A liberal allowance is made for used Pianos in exchange on the Pianola Piano, and easy monthly payments may be arranged
